

IS THIS ANYTHING?

*I've forgotten, how to smile
Or I've just lost, the one that's mine
I'm sure the one, I use is fake
People watch it all the time, (so disappointing)
Is this anything?*

**I want it to be something...Is this anything
hate this waiting...Is this anything
I feel something coming...Is this anything
Is this anything...Is this anything X2**

*Cant feel, just don't feel right
Dark clouds, massing up inside
I'm sure, I felt, safer somewhere
now I sit & watch, the world on Television
Is this anything?*

**I who have nothing...Is this anything
forever, forsaking...Is this anything
I feel something coming...Is this anything
Is this anything...Is this anything X4, is this?**

*Draw something, draw on something
Sometimes I'm dreaming, I'm waking up
And people, are drawing, all over me
Then I wake up, & their still drawing
Is this anything?*

**Is it all failing...Is this anything
Is this still working...Is this anything
I feel something coming...Is this anything
Is this anything X4**
