

# *I'VE GOT A SECRET*

Staring at the stars, lost my way,  
Look for something else, who'll I be today,  
You'll never know...  
A face in the crowd, wanna loose myself  
We're all-face wearing, being someone else. someone else

*I've got a secret,... keep it to, your-self,  
I've got a secret,... I'm, some, one, else  
I've got a secret,...-You'll never know, I'll, never, tell,  
I've got a secret,... I'm, some, one, else*

Another splitting image, rogue charlatan,  
I wanna be your, superman,  
You'll never know...  
The expert actor, doctor, I'm in the band,  
B, A, V.I.P with me, & drop a name. again'n'again

Who are you now, do we know, anytime,  
Keeping secret's, we've gotta hide,  
You'll never know...  
Feel my desires, I'm no different to you,  
Secret is I know, what you're gonna do. and you do
