

I' TS JUST LIKE YOU

I saw your new toy today
he was manic on the street
crying out into his hands--
like I used to do,... & it's just like you
I saw all the new holes, punched in your walls
I felt the craziness--
we all heard the screaming too, & it's just like you

**just like you X4 --- you never wanna choose, someone else has to loose,
got nothin' better to do, you give me the blues, dark, darkest blue EH**

you never listened to what I say
only answer in cliché
think you can lie the honest way--
made me feel I've something to loose,... & it's just like you
you tasted differently, left more than occasionally
you were never the same with me--
I cut you loose you, give me the blues, it's just like you

**just like you X4 ---nude & tattooed, I don't know what to do,
no body's like you, you gave me the blues, that's what you do POP**

baby ain't no good for me,
too involved in her own mortality
lost all empathy, blindly
saw the gun as the tool,... & it's just like you
baby was with the another guy, got a wicked alibi
held his hand as I was identified
swept the media away, told her point of view, & it's just like you

**just like you X8 ---what your runnin' through, is all the things you loose,
and all the screaming too, aimed at you, you & you,
now I got someone new, better than you in the bedroom ,
something I had to lose, you gave me the news, I cut you loose
just like you X3 --- my lover of new_,... is not a thing,.. like,.. you**
